What's Happening Here In Days Ahead

Party Saturday

Bailey Park's fencing was taken down Thursday to allow children to play at the Burney park, said Cindy Dodds. To celebrate the completion of the first phase of construction, thank the funders and honor the 300 local residents who worked on the project, a celebration is planned Saturday, beginning at 10 a.m. with live music, prizes and lunch. The party continues until 1 p.m. when the Intermountain Pool will be open for free swimming until 5 p.m. Tri County Community Network looks forward to the celebration and welcomes an opportunity to thank the many folks who have played a crucial role in the development of this project, Dodds said.

Visitor center

The Old Station Information Center, managed by the Lassen National Forest, Hat Creek Ranger District, will continue its schedule of summer hours through September. The center is located near the intersection of Highways 44 and 89 in Old Station and is open seven days a week, 8:30 a.m. to 4 p.m. Telephone 336-5521.

Animal rights group OK with local cattle ranch practices

The locally managed Prather Ranch, a 15,000-acre cattle ranch near Mt. Shasta, recently received certification from Humane Farm Animal Care (HFAC) for its humane animal treatment.

Prather Ranch produces dry-aged USDA Certified Organic Beef and was the sixth producer nationwide to receive this certification, according to a release from the HFAC News in Herndon, Virginia.

HFAC certification qualifies Prather Ranch to use the "Certified Humane-Raised & Handled" label on its packaging.

"We talk to consumers every day who are concerned about animal welfare," said Prather Ranch Managers Jim and Mary Rickert, of McArthur.

"As producers, we have a responsibility to treat animals humanely. The 'Certified Humane' label assures the consumer that our raising practices meet the highest standard. We find humane animal handling practices produce a better piece of beef."

Prather Ranch cattle are a "closed herd" comprised only of those born and raised on the ranch.

The cattle are raised in a low-stress environment, with spring-fed water and feeds grown on its ranch, the Rickerts said.

"We maintain detailed records of genealogy, weight, feed and life history for each animal," they said.

And the animals are never administered growth-stimulating hormones or antibiotics or fed animal-derived proteins.

HFAC is a new non-profit organization that is supported by a coalition of the nation's leading animal protection organizations.

The rating certifies that meat, poultry, egg, and dairy products are raised according to strict animal-

handling standards.

"This assures consumers that the product has met HFAC's Animal Care Standards, which were developed by a team of leading animal scientists and veterinarians," according to the news release.

Prather Ranch's certification follows rigorous on-site inspections by

HFAC professionals.

Jim Rickert said that the closed herd approach is an expensive way to raise beef.

"But consumers are willing to pay a little extra for beef that has been raised with respect for the environment and the animals," he said.

Tough place to make a U-turn

Traffic was slowed for about 90 minutes Monday after a moving van was high centered on Highway 299 about one mile east of the intersection of Highways 299 and 89. The driver, Dennis Smith, 56, of Huntington Beach was driving east on the highway about 2:15 p.m. when he determined he wasn't on Highway 44. He proceeded to turn the big rig around, but ended up blocking the westbound lane and a portion of the eastbound lane. Traffic was diverted along side the road until the tractor-trailer was cleared.

College eyeing 3 lots of Mayers

BY MEG FOX

Mayers Memorial Hospital could have just what Shasta College is looking for.

With plans to open the new Distance Education Center in downtown Burney on hold again, Shasta College is considering other options - including three lots that the hospital owns across from the Crossroads Clinic in Burney.

Shasta College Area D trustee Judi Beck, who is also, a former CEO at Mayers, and Shasta College Interim Superintendent/President Tom Harris, Jr., attended the hospital's Aug. 27 board meeting to make their request.

"The board said they would be happy to help, as long as entering into a financial arrangement with the college did not interfere with the cost report," said CEO Jerry Fikes.

Hospitals are required to account to Medicare and Medi-Cal for all costs of its operation, including how they use their square footage, Fikes explained.

If it's associated with skilled nursing, for example, certain costs are allocated. And if not, there can be deductions and penalties.

"They can reimburse or take away, so we can't willy-nilly enter into an agreement where hundreds of thousands of dollars change hands" over cost determinations, he said.

The hospital would prefer to lease, rather than sell, the land to the college if they do anything.

"But whether we lease, sell or give away, we've got to work with our consultants," Fikes said.

"We told the college we are interested but that we intend to proceed slowly."

The board also expressed concern about interfering with the Fall River Joint Unified School District's agreement with the college.

"We want to be sure all the stakeholders in community education are engaged in this process," Fikes said.

STAR results for area schools

BY MEG FOX

The state Department of Education has released results for the 2003 Standardized Testing and Reporting (STAR) program.

Students in the Fall River Joint Unified School District starred on the new CAT/6 tests, but had less than stellar scores on the state's content standards tests.

Individual student test scores were mailed to their homes in August.

Students took the California Achievement Test, Sixth Edition Survey (CAT/6), a nationally norm-referenced test used to compare how California students are doing in relation to students of the same grade level nationwide.

The scores reported for the CAT/6 are national percentile ranks. The test replaces the SAT/9.

The CDE said that although the CAT/6 is a good indication of how students are doing compared to the rest of the nation, the California Standards Test (CST) is considered to be a more informative test.

It is more closely aligned to what California students are being taught in the classroom, the CDE said.

However, Sherrie Hutchinson in Personnel at the District Office commented that the state temporarily dropped the California High School Exit Exam mandate after realizing that students and teachers had not had enough time to align their instruction and materials to the state's new content standards.

Supt. Eric Newton was out of town at press time and not available to comment on the district's scores.

The state target is for every student to score at the Proficient or Advanced Performance Standard on all of the tests and students took a battery of them this spring.

Students took CST's in English/Language Arts, as well in various levels of mathematics and also in world and US history, biology, chemistry, earth science and physics.

In looking at the results, scores were randomly selected from the state reports for this school district's third, fifth, and ninth grades.

In this first year of testing with the CAT/6, 55 percent of the third graders in the Fall River Joint Unified School District scored at or above the 50th percentile in reading.

Only 34% of third graders statewide and 47% in Shasta County scored at or above the 50th percentile.

Sixty-five percent of Fall River's and 48% of East Burney Elementary School's third graders were at or above the 50th percentile in reading.

Only 34% percent of third graders statewide and 47% in Shasta County scored at or above the national average in mathematics.

Fall River Coach Kelly-Freeland Sloat looks for the Grand Prize winner's ticket in Saturday's Cow Chip Bingo in photo at left. In photo above, McArthur FFA member Leslie Taylor, whose Grand Champion steer Burt, in background, made the Grand Prize deposit, telephones Elizabeth Landoski, of Adin, to tell her she won \$3,000 in Cow Chip Bingo.

Cows doo their part in F.R. fundraiser

In just two weeks, students in the Fall River Joint Unified School District sold more than 1,900 Cow Chip Bingo tickets for \$10 each in the fundraiser for their athletic program.

Then the cows did their part.

On Saturday, after Fair Bowl football in McArthur, Leslie Taylor led the first player, "Burt," her FFA Champion and Grand Champion steer, into the fenced and marked off field.

He made his donation in Bingo Square Number 0481, owned by Elizabeth Landoski of Adin, winner of the \$3,000 grand prize. She purchased her ticket from a Fall River Booster Club member.

Next up was the 4-H Champion and Reserve

Grand Champion steer raised by Jessica Neugebauer, who made Mae Markham of Fall River Mills the winner of the \$1,500 second place prize.

Markham purchased her ticket from Lindsay Crum.

Blaire Bidwell's animal, the Reserve Champion FFA steer and Showmanship winner, determined the \$500 third place winner — Pat Grebic of Shingletown, who purchased the ticket from Brian Mallard.

The event grossed \$19,120 and the district has agreed to pay \$4 on every \$1 remaining after expenses, according to Supt. Eric Newton, who was the announcer for Cow Chip Bingo.

"This is a big step towards reaching our goal (to fund athletics)," said Fall River

Coach Jeanne Utterback. "The kids did a great job and our community is awesome."

Cash prizes were also awarded to students who sold the most tickets.

Ninth grader Casi Carpenter, of Fall River Mills, won the Top Seller prize of \$150 by selling more than 190 tickets.

"And then she donated it right back to the athletic fund," Utterback said.

Ellie Haydock, a seventh grader at Fall River Junior-Senior High School, sold 123 tickets to win the \$100 second place prize, and Lisa Senko sold 64 tickets to win the \$50 third prize.

PUBLIC NOTICE

PIT 1 HYDROELECTRIC PROJECT (FERC No 2687) Public Recreation Meeting

BACKGROUND:
On April 19, 2003, the Federal Energy Regulatory Commission (FERC) issued a new license for the Pit 1 Project (FERC No. 2687). This action concludes the over 13 year relicensing process for the Pit 1 Project. The Pacific Gas and Electric Company is now in the process of implementing the terms and conditions of the new license, which includes implementing elements of the Project's recreation plan. The Pit 1 Project lies largely within the Fall River Valley. The recreation plan includes recreation enhancements at Big Lake and the Pit 1 Fore bay (Fall River Lake) and new shoreline accesses to the Fall and Pit rivers.

WHAT'S BEING PLANNED?
A public meeting is scheduled on Wednesday, September 10, 2003 at 7:00 p.m. at the Veterans Hall in Fall River Mills, California. The meeting will summarize the FERC approved Project recreation enhancements and allow time for questions and answers.

WHY THIS NOTICE?
Pacific Gas and Electric wants to inform those residents of the community surrounding the Pit 1 Project of its plans to improve recreation facilities at the Project as required by the new FERC license. This is in recognition of the efforts of the community and its residents that have participated in the relicensing proceeding over the years.

CAN YOU KEEP TRACK OF IT ALL?

Looking for houses can become overwhelming for many prospective buyers. You have trouble remembering which homes you liked a lot and which ones you didn't. Realtors use a few good tricks that can help you remember what you have seen.

You will usually be given a copy of the listing with all the pertinent information. Write down one distinctive feature on the listing sheet that will help you remember the house. Maybe the house had unusual moldings in the dining room, a red door, or unusual wallpaper. If the house was particularly interesting to you, put a big star on the top of the page to remind yourself that you would like to see it again or even perhaps make an offer on it. If there are features for which you have a strong preference, or you eliminate a house from consideration for any reason, be sure to tell the agent why. Communication between you and your Realtor will save you a lot of time and effort because you will only be shown the homes that meet your particular needs.

Varsity Bulldogs defeat Burney in Fair Bowl, 34-6; JVs tie, 8-8

BY MEG FOX

Sports rivals Burney and Fall River opened the local football season in the hot Saturday sun at the Fair Bowl in McArthur with an 8-8 tie for the JV's and a 34-6 win for the Varsity Bulldogs.

In Varsity play, Fall River's Matt Heiland (No. 77) got the Bulldogs in the mood for victory on the opening kickoff, said Coach Steve Hubauer.

"It was the kind of play every coach dreams of. He went down and just exploded a couple of guys into the guy with the ball. It set the tone for the whole game for us."

Bulldog Keegan Moyer (No. 23) scored two touchdowns and a two-point conversion as the Bulldogs started stacking up their points.

Moyer had 14 carries for 153 yards.

"That's over 10 yards a clip. Pretty impressive. Keegan had a great day," said Coach Steve Hubauer.

Carson Hubauer (9) also scored two touchdowns for Fall River, with one reception for 36 yards and six carries for 36 yards.

Daniel Pagan (33) had six carries for 37 yards for the Bulldogs and one pass reception for five yards.

Another Bulldog, Rob Senko (45), had five carries for 28 yards, one touchdown, and one two-point conversion on a reception from Mitch Holscher (12).

Senko had a catch for 10 yards, his coach said.

Hubauer also praised his

offensive linemen — Dakota Crum, Nick McFarlin and his son Carson, for their "outstanding" blocking.

The Raiders sustained two injuries in their Varsity game, something Osborne said contributed to their loss.

"I think the guys were worn out. We were down to 11 players."

Burney center Robert Burkett (52) left the field with a knee injury, but Osborne said he is expected to return to play in about a week.

Raider running back Clayton Vaughn (45), a 5'10"-tall, 180-pound senior, played hard and fast until he was taken out with chest pains and breathing trouble.

Osborne said Vaughn is okay and will be on the Burney High School field Friday night when the Raiders take on Mt. Shasta.

"I was pleased with the kids as far as turnover," Osborne said. "We just didn't capitalize on it."

Sophomore Mike Young (40), a newcomer to Burney this year who was moved up to varsity, scored the Raider's lone touchdown on a 35-yard pass.

"It's always good to get a win over Burney, but we've got a long way to go. We're far from being flawless and have a lot to work on," said Hubauer.

Fans can watch the Bulldogs on the Fall River field Friday against Westwood.

In JV play, Burney quarterback Cory Drenon (11), a sophomore, scored a 30-yard touchdown run for the Raiders, with sophomore running back Colby Fitch (36) scoring the extra point.

Fall River sophomore Alex Vigil (19) scored for the Bulldogs in the second quarter on a one-yard run.

Sophomore Cliff Manley (23) made the two-point conversion run.

Running back Kevin Sutherland (49), another Burney sophomore, ran an amazing 75 yards with the ball tucked under his arm, but in the excitement the Raiders got caught clipping and were penalized.

"It brought the play back," said Osborne. "It happens."

In the final 13 seconds of the game, the Raiders missed a field goal that would have given them the win.

"It was close," said Osborne.

"Defensively, it was hard for either team to sustain a drive, but Burney was very well-prepared," said Fall River Coach Greg Hawkins.

"A break here, a break there. Either team could have won. For the first game, it was pretty well played and both teams played well."

First of a Four-Part Series About . . .

The First Amendment

James Madison called the five rights in the First Amendment "the Great Rights." Our nation's founders believed that every person is born with basic rights, including

freedom of religion, speech, press, assembly and petition. The First Amendment to the U.S. Constitution reminds us that the government does not give us these rights and the government may not take them away.

The First Amendment protects our freedom of expression. We are free to think what we wish and to say what we think.

Since we are protected to do this, we are able to inform others about what we think.

With the free flow of ideas, others can inform us about what they think. Because of the First Amendment, we are able to become informed citizens who can make good decisions about what is best for our country.

The government must... Thanks to this amendment, we also have a way to tell the government when we are unhappy or happy about what it is doing.

In countries where ideas are controlled by the government, the people are not free to exchange thoughts and give their opinions. They have no way peaceably to bring about a change in a government they don't like.

Because of the First Amendment, Congress does not have the right to interfere with our freedom of:

• religion

• speech • the press • peaceable assembly

This amendment also gives us the right to petition for or request government action.

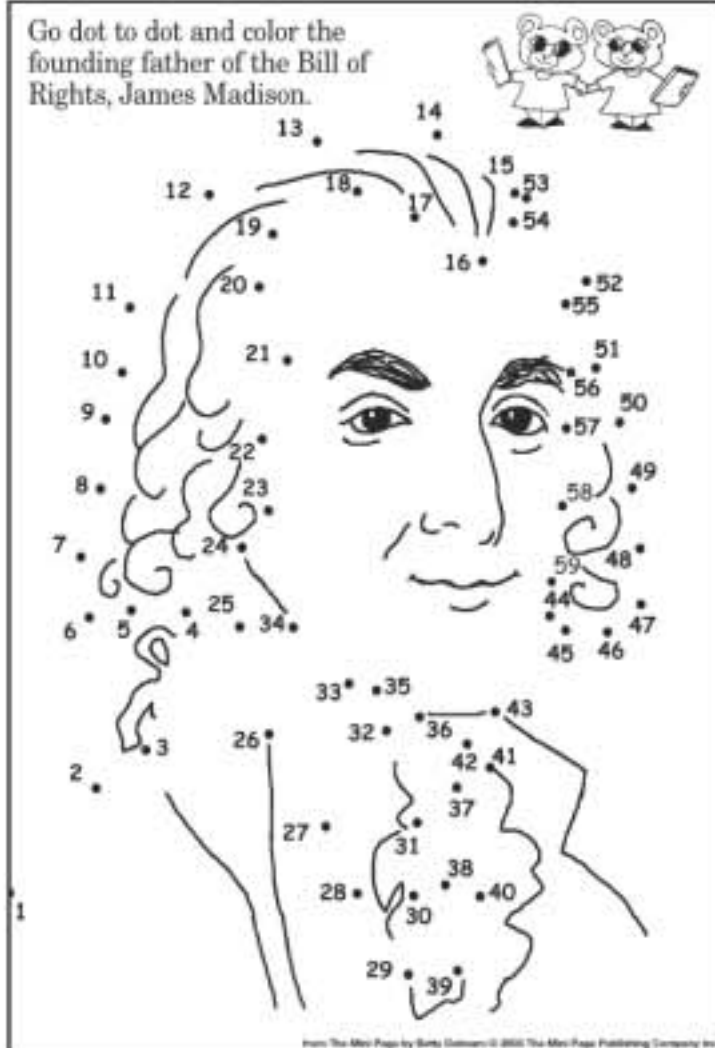

The First Amendment:
"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or of the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

Notice that the First Amendment says that only Congress cannot take away certain freedoms or liberties.

For many years, only the national government was prevented from taking away these rights. However, the states had their own constitutions that usually protected their citizens.

After the Civil War, the 14th Amendment was added to the U.S. Constitution to make sure that states could not take away the rights of any citizen. In the 20th century, the U.S. Supreme Court ruled that the 14th Amendment means that the states may not violate the rights listed in the First Amendment. The 14th Amendment says, in part: "... nor shall any state deprive any person of life, liberty or property without due process of law." A citizen's liberties, or personal rights, cannot be taken away by any state government.

All citizens have the right to due process, or the right to be treated fairly.

Rookie Cookie's Recipe
Crunchy Veggie Snacks

You'll need:

- 5 tablespoons butter, melted
- 1 egg
- 3 tablespoons water
- 1/2 cup all-purpose flour
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 2 1/2 cups fresh vegetables, cut in bite-size pieces
- salad dressing of your choice

What to do:

1. Spread 2 tablespoons of the butter in the bottom of a 9-by-13-inch baking dish.
2. In a small bowl, beat together the egg and water. Set aside.
3. In another small bowl, mix together the flour, salt and pepper.
4. Dip each vegetable piece in the egg mixture and then roll in the flour mixture.
5. Place the pieces in the baking dish and drizzle remaining butter over them.
6. Bake in a 450-degree preheated oven for 12 to 15 minutes or until golden brown.
7. Serve warm with your favorite salad dressing for dipping. Makes 2 to 3 servings.

Gus Goodsport's Report
Supersport: Joe Paterno

Birthdate: 11-21-26 **Hometown:** Brooklyn, N.Y.

Joe Paterno is 76 years old, but don't mention retirement to the legendary Penn State football coach. The Papa Lion is still roaring and winning games.

In his 38th season as head coach of the Nittany Lions, Paterno has more victories (336) than any coach in Division I history. His teams have won more than 75 percent of their games, two national titles and earned 25 top-20 rankings.

Paterno, married with five children, also is recognized as an outstanding role model who teaches his players valuable life lessons as well as how to block and tackle.

Paterno and his wife, Sue, have contributed more than \$4 million to Penn State. Their gifts are being used to pay faculty members, provide scholarships, support the library, and help build an all-sports museum and an interfaith spiritual center.

Meet Train

The members of the pop/rock band Train all have one thing in common: They love to play music.

The group first formed in 1994 when the lead singer, Pat Monahan, met Rob Hotchkiss in Los Angeles. They moved to San Francisco and played together in coffee houses. Later, they added Charlie Colin to play bass, Jimmy Stafford for guitar and Scott Underwood on drums. (Hotchkiss left the band this year.)

In 1998, the group signed a recording contract. Their first single, "Free," became popular when it was played on the FOX TV show "Party of Five." The song "Meet Virginia" helped make their album go platinum in March 2000. Then, the group won a Grammy for Best Rock Song for "Drops of Jupiter."

Today they are known worldwide and are enjoying their fame.

MIGHTY FUNNY'S Mini Jokes

All of the following jokes have something in common. Can you guess the common theme or category?

Howard: How can it be possible to get down from a mountain without first going up?
William: Be born at the top!
Sue: What do mountaineers tend to do when they are bored?
Sandy: Climb the walls!
Frances: How did the man feel when he fell off the mountain?
JoAnne: Crestfallen!

Freedom of the Press

The Zenger case

The right to print the truth and to criticize the government had been established, or set up, early in the history of our country. It began with a famous court case called the Zenger case.

This trial took place long ago, when our country was ruled by England. A publisher, John Peter Zenger, printed a true but unflattering story about the royal governor of New York.

The governor had Zenger thrown into jail. At a trial held in 1735, it was proven that what Zenger printed was the truth. The jury found Zenger not guilty and set him free.

However, there have been cases where the press has thought that the government has gone too far in limiting the press's power to print and cover what it wants. Some reporters have gone to jail rather than reveal to a court the source of information for their stories.

There have also been cases where members of the press have been brought into court because some person or group has felt that they have gone too far in using freedom of the press to print what they wish.

The debate continues about the meaning of freedom of the press. For example, when can the press be kept from printing or broadcasting stories that the government thinks:

- endanger our national security, or give away military secrets?
- libel or make fun of people and ruin their reputations?
- prevent a person accused of a crime from getting a fair trial because so much about the case has been printed in the paper or broadcast on the news?

Sometimes the courts have allowed the government to limit the press in cases like these. But in most cases, the right of the press to print or broadcast the truth without government interference has been upheld by the courts.

The First Amendment guarantees our right to have a free and independent press so that we can be informed about what is happening in our nation and the world. It is up to members of the press to make sure that a free press is also a fair and responsible press.

History

For hundreds of years in England, it was a crime to speak out against the king. Books that were not approved were collected and burned. If a printer did not have a special license, his printing press could be destroyed.

Writers often had to present what they had written to censors for approval before it could be printed. English writers began to demand more rights in the late 1600s. This new movement for rights led to the belief that the press should be protected, too.

Press rights and responsibilities

The idea of freedom of the press was very important to the founding fathers. When the colonies declared their independence from England, the right of freedom of the press was included in many state constitutions.

The Mini Page thanks the educational staff of the National Archives and Charles Haynes of the First Amendment Center for help with this issue.

Next week The Mini Page is about freedom of religion.

Look on the editorial page of your newspaper for articles that criticize or praise the government.

LETTERS TO THE EDITOR

Explorers Program

Editor:
I am Sergeant of the Burney Explorers post. We are a group of kids between the ages of 14 and 21.

Our advisor is Marc St. Clair who is one of the deputies of Burney.

The Explorers program is a opportunity for kids who are interested in law enforcement, it gives us a chance to learn what Sheriffs do to help keep our community safe.

With the help of the Burney Lions Club, we recently went to a competition in Seattle Washington. Unfortunately we didn't place or win any awards. We wouldn't have been able to go without the generous donation from the Lions Club.

If you are not sure what the Lions Club does for the community, they replace the American flag on Main Street every three months, they put on the pancake breakfast during the Burney Basin days.

They also put on the Senior girls dinner for Burney High, and they take care of Christmas tree lane. That is four of the many things that the Burney Lions Club does for our community.

Also, I would like to ask all of the businesses of Burney to help us get to our next and upcoming competition in Las Vegas, Nevada. Your donations would be greatly appreciated. If you could please drop any donations off at the Substation on Shasta Street in Burney.

Medicare

Editor:
focus for a while on Americans of today and tomorrow, having a Medicare prescription-drug Plan that: HAS no vouchers; HAS reasonable premiums; HAS regulated/negotiated stable drug prices; and is NOT privatized.

Voters and non-voters alike, please write/phone your Member of Congress now, while the Senate and House are conferring on a final Medicare prescription Plan, urging your strongest support.

Forget the House Republican representing Bakersfield Ca., who spent his usefulness, June 27, 2003, deliberately-cascading the final

House Democrat prescription proposal, down onto the House floor. (see live CNN coverage).

Unfortunately, the final tear-laden House Plan is nothing more than a half-brained product, made under duress, and adopted an hour after the allotted-time had elapsed.

Local Politicians

Editor:
Our public officials are out one of two things, 1. Out of touch or 2. Corrupt, either one that stand in contempt of the people.

I won't go on and on about this at a national level, so I will keep it simple, just local politicians. Let's start on our great Board of Supervisors, what a joke.

The county is hurting for funds, they are saying "this is the biggest budget crunch for Shasta County in more than a decade" (reported by the Searchlight 6-25-03), yet are still going to build a County Admin Office at the tone of 22 million dollars for the project, but this is only a little part of the 72.2 million in debt service to said project (reported by the Searchlight, June of 2003).

Now in fairness the only Supervisor who spoke up against this was Mr. Kehoe, he actually made a deal with the city of Redding to have office space given to the county and was out voted by the rest of the Board.

That being said lets look closer to home, the Burney Fire District. Now last Sept. the board hired Mr. Bob May to be our new Chief at the wage of \$47,000 + benefits. Now here last month Mr. May announced to the Board and the public, that the Burney Fire District was going to increase fees because of budget problems, OK, I can see that, but to then come to the Board less than a month later and ask for a 5% raise, good Lord folks.

Stick to your stories, if we as a district are hurting for money and need to raise fees, please have more sense than ask for a raise not more than a month later.

Now I see that the Board has given Mr. May the raise, during a closed session meeting I may add. Come on people you are our public servants, you work for us "We the People" don't you get it,

or is it you don't care?

So, that all being said, remember who is who is public office and vote against all of those who seem not to have the peoples interests at heart. Vote and fight for our voice.

See you all in Oct and remember vote yes to recall Davis.

Alturas Casino...

Editor:
The Alturas Casino has donated \$1500 to the Modoc High School athletic programs, stemming from country star Kevin Sharp's July 4 performance at the Griswold Gym in Alturas.

The Casino reminds everyone that there were over 30 local businesses who co-sponsored the even and it was "their support and generosity which made it possible to bring Kevin Sharp to our community."

That support as well as donations and services allowed the casino to make the \$1,500 donation.

Modoc Coach Shaun Wood accepted the check from Myra Alexander and Chief Financial Officer of the Alturas Casino and Elaine Schreiber Marketing Manager.

They thanked the businesses and individuals whose donations and ticket purchases made the Kevin Sharp concert possible. The Casino is looking into bringing another major concert to Modoc next year.

Editor:
Hi! My name is Amber Denny and I am a member of the Burney FFA.

This past year I served as President of the FFA. I graduated in June of this year and am now attending Shasta College where I am majoring in Crime Scene Investigation.

I have truly enjoyed my years in FFA. As most of you know there will no longer be a Burney FFA due to budget cuts in our school district.

I am truly saddened by this program being cut. I have learned so much and have enjoyed it tremendously. It is not only raising an animal to take to the fair, but all the other things that being a FFA member means.

There is the State Conference, the Leadership Retreats, National FFA week where we put on an assembly for our High School, went to the Elementary School to teach the younger students what FFA was all about, Monthly FFA meetings, FFA Field Day, the Inter-Mountain Fair, but most of all the friendships you make along the way.

I want to thank you so much for supporting the Burney FFA all these years, and hope that you will be at the Inter-Mountain Fair this year not only to support the Burney FFA, but all the other clubs in our Intermountain area.

Once again we appreciate all your support.

-Amber Denny
